Down on the Farm

Come on down to the farm to enjoy farmyard friends and outdoor play!

Our Winter 2026 collection is inspired by the simple joys of nature—delightful tasks that build confidence and connection, like gardening, harvesting crops, and caring for animals. Fresh air is good for the body and the soul.

Tiny Twig takes this inspiration and lovingly transforms it into a beautiful collection of clothing that blends comfort, warmth, and thoughtful design. Made with thick plush cotton interlock and cosy faux lamb's wool, each piece is designed to keep little ones warm through every adventure. Soft denims and luxurious French Terry introduce rich textures that feel as good as they look.

The entire collection is built around a carefully curated palette of colours, thoughtfully chosen to mix and match seamlessly across every piece—making dressing easy, practical, and stylish.

Thank you for considering Tiny Twig's Fall2026 collection, Down on the Farm, for your store.

With love,
The Tiny Twig Team

Zipsuit and Beanie in Making Honey

OUR FABRICS

Organic Cotton Interlock – 240gsm

A luxuriously soft and breathable double-knit fabric, ideal for layering and everyday wear. Its smooth finish and medium weight provide gentle warmth while remaining comfortable for sensitive baby skin.

French Terry – 95% Cotton, 5% Elastane

A versatile, stretchy knit fabric with a smooth outer surface and soft looped underside. The added elastane enhances flexibility and comfort, making it perfect for activewear, loungewear, and casual styles.

Faux Lambs Wool – 100% Recycled Polyester

An ultra-soft and cozy fabric that mimics the warmth and plush texture of natural lambswool while being eco-friendly. Made entirely from recycled polyester, it's a sustainable choice for jackets, linings, and winter accessories.

Organic Denim – Pants & Shackets (100% Organic Cotton)

Durable yet breathable, this organic denim offers a classic, structured feel with a sustainable edge.

Lycra Denim – Overalls (95% Organic Cotton, 5% Elastane)

A modern take on traditional denim, combining organic cotton with elastane for a comfortable stretch. Ideal for active little ones, these overalls offer ease of movement without sacrificing durability.

Organic Cotton Crinkle Muslin

Lightweight, airy, and naturally breathable, muslin is perfect for warm-weather clothing, swaddles, and layering pieces. Its soft texture and natural drape make it a must-have for baby essentials.

Chunky Growsuit Mineral Blue

Tiny Twig Organic is a lovingly crafted babywear brand born in Australia, in 2009 by founder Dr. Madhu Siva. Inspired by her own research for natural, safe fabrics after discovering how sensitive a baby's skin can be, she created a line of GOTS-certified organic cotton garments that are stylish, functional, and gentle on both infants and the planet.

Whilst the designs originate in Australia, all their clothing is lovingly made in India –reflecting fair-trade practices, ethical manufacturing, and sustainable supply chains—then shipped worldwide to babies and parents across Australia, U.S.A, Canada, Japan, Singapore, India and beyond
